

## MAKE SURE WOOD IS READY TO STAIN

Sprinkle a few drops of water on the surface. If water is readily absorbed into the wood proceed. If water forms droplets on the wood surface wait one month and then retest before applying coating.

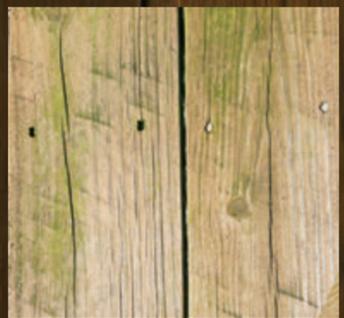

READY TO STAIN

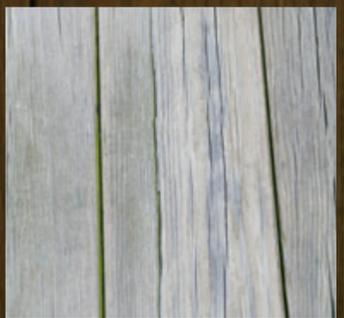

NOT READY TO STAIN

## PROBLEMS

If you notice any of these problems, you should follow cleaning steps thoroughly before staining. Eroded, rotted, and decayed wood should be replaced.

MOLD, MILDEW, AND ALGAE

WEATHERING

TANNIN BLEED

Colors shown approximate actual stain colors as accurately as possible in process color printing. For an accurate color match, we recommend an initial brushout on the wood of your choice.

## MIX AND MATCH

Shutter (Sage Solid Stain), Siding (Sedona Red Semi-Transparent Stain), and Decking (Natural Honey Toner)

It is important to select bold color combinations that match the period of your home and impart your individual style at the same time.

Texture is another powerful element which will add visual interest to the appearance of your house. Stain is the perfect choice because it adds pigment without filling the surface texture like paint. Coordinating the color selections of the ZAR® Clear Wood Sealer & Toner, the ZAR® Semi-Transparent Exterior Deck & Siding Stain, ZAR® Solid Exterior Deck & Siding Stain, and the ZAR® NuDECK Concrete and Wood Restorative Coating offers the best option for adding color and keeping texture.

Here are a few color combinations that make it easy to choose the main colors and accents of your home for many design styles and specific tastes.

**WARNING:** Cancer and Reproductive Harm - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

Beachwood Gray	Platinum
Black Walnut	Black Walnut
Barnboard	Parchment
Roasted Almond Toner	Roasted Almond Toner
Sedona Red	Sedona Red
Salem Tan	Natural Honey Toner
Pilgrim Blue	Winter White
Autumn Chestnut Toner	Autumn Chestnut Toner

Natural Redwood Toner	Natural Redwood Toner

Protect Your Wood Investments

# CLEAR

Ideal first coat that imparts a soft color to unstained and unpainted wood.

Protects exterior wood surfaces from the effects of rain, sun, and other weather damage. A second coat deepens the color and brings out a soft sheen. Ideal for all types of woods including pressure treated lumber and log cabins.

Clear Wood Sealer (Tintable)

## TINTABLE COLORS

Autumn Chestnut Toner Golden Wheat Toner Natural Honey Toner Natural Redwood Toner Roasted Almond Toner

# SEMI

Subtle color that highlights wood's natural grain and texture.

Stain and sealer in one. It is a unique blend of oils, and finely ground translucent pigments that penetrate deeply to enhance the natural beauty of the wood. Apply to all types of woods, even premium-grade lumbers. This unique formula rejuvenates the wood and provides long-lasting sun protection, repels water, excellent color retention, and mold, mildew, and algae resistant on the dry paint film. It will not peel or crack.

## READY-MIXED COLORS
